

# Digital Practice and Application of Industrial and Commercial Energy Storage Devices

**Dr. Yi Feng**

CTO, Zhejiang Cheeco New Energy Technology Co.LTD

**Abstract:** Cheeco is one of the pioneers in China's industrial and commercial energy storage industry. Due to the characteristics of small capacity, dispersed users, and high operational fluctuations in industrial and commercial energy storage, the use of digital technology can effectively reduce application risks and increase profits. The speech mainly looked forward to the practical operation of Cheeco in Zhejiang Province, China.

**Bio:** Dr. Feng Yi, CTO of Zhejiang Cheeco New Energy Technology Co., Ltd. Yi Feng graduated from Shanghai Jiao Tong University in Electrochemistry, and from Chinese Academy of Sciences with doctor of Materials Physical Chemistry ,in 1999 and 2015,respectively.From 2009 to 2022, Mr. Feng worked at the Shanghai Academy of Aerospace Technology. At present, he is mainly engaged in the development and application of energy storage devices for industry.
